

## INDEX.

NOTE. The figures refer to the numbered sections excepting when the word *Page* is prefixed.

- Abuse of the harmonics. 787.  
 — of the tongue in articulation. 741-2.  
*Accelerando*. 797\*.  
 Accent. 803-4.  
 — and emphasis compared. 811.  
 Accents of compound times. 807.  
 — of simple common time. 805.  
 — of simple triple time. 806.  
 — often misunderstood. 809.  
 — of triplets. 808.  
 Acoustics. I.  
 Agricola, Martin, 397.  
 — on the Swiss flute. 400. *figs.* 39 and 40.  
 Air-column, see Column of air.  
 — vibrations of, in tubes. 66-171.  
 Air-reed, the, 84-113. *Chap.* XVIII.  
 — and the column of air, reciprocal action of, 112.  
 — effect of change in its direction. 109-111.  
 — effects of variation in its force and direction. 106-111.  
 — experiment showing the effect of interference in its action. 107.  
 Airy on sound-production in the flute. 99.  
 Altès, music by, *Page* 518.  
 Andersen, music by, *Page* 519.  
 Antinode. 42.  
 Appendix (A) to Part III. Original compositions for the flute. *Page* 518.  
 Appendix (B) to Part III. Arrangements for the flute. *Page* 528.  
 Arbeau, Thoinot, his "*Orchesographie*." 401.  
 — his description of the fife. 401.  
 Aristotle. 178.  
 Aristoxenus on flutes, etc. 306.  
 — on musical intervals. 278, 280.  
 Arm, the left, its position. 718.  
 — the right, its position. 719.  
 Arrangements for the flute. Appendix (B) to Part III. *Page* 528.  
 Articulation. 817-824.  
 — use and abuse of the tongue in, 737-744.  
 Ashe. 453.  
 — notice of, 860.  
 Atys. 861.  
 Authorities for pressing the thumb to the side of the flute. 716.  
 — for turning the mouth-hole inwards. 715.  
 Authors quoted, list of, *Page* xxxix.  
 Bach, C. P. Emanuel, *Page* 568.  
 — Sebastian, 281, *Page* 582.  
 — his flute-music. *Page* 519.  
 Barnett, his music for flute and piano. *Page* 519.  
 Barret, Mons., 571.  
 Barrett, Mr. W. L., his modification of the "1867 flute." 685.  
 Bartholinus, *De tibiis veterum*. 304-5, 380.  
 "Bass flutes." 441, 443-4, 450, 513-516, 687.  
 Bayr. 560.  
 — music by, 872.  
 — notice of, 871.  
 Beats. 195.  
 — De Morgan on, 197.  
 — Mr Ellis's treatise on, 198.  
 — Sauveur the first to investigate, 195.  
 — the only satisfactory tests of intonation. 198.  
 Beds of the keys. 383-7.  
 Beethoven and Kuhlau. 886.  
 — arrangements from, *Pages* 528-9.  
 — his flute-music. *Page* 519.  
 Behr, his flute-music. *Page* 520.  
 Belcke, music by, 914.  
 — notice of, 913.  
 Benda, Karl, *Page* 568.  
 Benedict. 925.  
 — anecdote of, 935.  
 Berbiguier. 715, 741, 902.  
 — an advocate for a powerful tone. 553.  
 — music by, 879.

- Berbiguier, notice of, 878.  
 Bergson, his Sonata for flute and piano. *Page* 520.  
 Bernoulli. 149, 165, 242.  
 — his experiment with a string. 52.  
 — on composite sounds. 186, 188.  
 — on vibrations of columns of air. 116, 118-120, 122-3, 130-4.  
 Beuker, J. 441.  
 Bideau. *Page* 585.  
 Biglioni, a flute by, 430-3.  
 Biot, his remarks on equal temperament. 287.  
 — on the tube of a wind-instrument. 242.  
 Birnbach. 896.  
 Bishop. 310.  
 — his songs with flute *obbligato*. *Page* 520.  
 Blaikley, Mr. D. J., his account of Pratten's flute. 672.  
 — his accurate tuning. 290.  
 Blaserna, his objections to equal temperament. 289.  
 Blavet. 413, 848.  
 — music by, 841.  
 — notice of, 840.  
 Bochsa. 560, 909.  
 Body, position of the, 710, 711.  
 Boehm. 320, 342, 378, 390, 391, 396, 467, 568, 571, 576, 579-631, 633, 661, 662, 666-7, 684, 687.  
 — Gordon and, 599-631.  
 — his adoption of the cylindrical body. 341.  
 — his arrangement of the finger-holes discarded by Rudall and Rose. 668, 674.  
 — his defective mechanism. 594.  
 — his defective tuning. 349, 355, 594, 654.  
 — his early career. 579.  
 — his error regarding the bore. 338.  
 — his flute described by Schafhäutl. 596-7.  
 — his flute mentioned in the "Harmonicon." 595.  
 — his new head-joint. 341.  
 — his "patent flute." 582-590, *fig.* 55.  
 — fingering of, 587-9.  
 — his plan of working. 600-603.  
 — later flute by, *fig.* 56. 591-8.  
 — letters by, 621, 637, 677, *Page* 619.  
 — music by, 912.  
 — notice of, 911.  
 "Boehm-flute," fingering of the, 587-9, see also Gordon.

- Bohrer. *Page* 589.  
 Boie, F., a flute by, 424-429.  
 Boie or Boye, the inventor of metal plugs for keys. 384.  
 Bonanni, Filippo, 49, 422.  
 Bore, of the flute, dimensions of the, 342.  
 — its various forms. 338-341.  
 — the conoidal, 339, 415, 665-7.  
 — the cylindrical, 338, 398-404.  
 — the cylindrical, with parabolic head-joint. 653-6.  
 — the improved conoidal, 665-7.  
 Bores of various flutes. 404, 428, 432, 442, 448, 460, 494, 501, 514, 518, 531-3, 538, 552, 601, 650, 671, 687, 919.  
 Boxwood. 312.  
 Briccialdi. 721.  
 — his attempts to revive the old fingering. 659.  
 — his *de* lever. 658, *fig.* 62.  
 — his inventions. 658-9.  
 — music by, 934.  
 — notice of, 933.  
 Brouncker, Lord, 252.  
 Brunot. 891.  
 Bucher, his flute-music. *Page* 520.  
 Buffardin, 413, *Page* 541.  
 — notice of, 836.  
 Buffet, *Jeune*, M., 390, 632-4.  
 Buononcini. *Page* 544.  
*c'*, divided hole for, 569-570, 572.  
*c'*, open hole and key for 482, 564-5, *fig.* 52. *c'* hole, 360-3.  
 — advantages of the tubular extension of the, 796.  
 — latest improvement in the, 363, 688, 796.  
 — the double, 362.  
 — tubular extension of the, 363, 688, 796.  
 — uses of the, 360.  
 Calculation of *c'* from *a'*, and *a'* from *c'*. 296.  
 Cambini. 560.  
 Camus. 636, 923.  
 — music by, 918.  
 — notice of, 917.  
 Cann, Miss, a flute-player. 547.  
 Capeller, J. N., 559, 575, 577, 911.  
 — his *d'* key. 365, 521-2.  
 — his new flute. 521-4.  
 — his tuning slide. 522.  
 — music by, 885.  
 — notice of, 884.  
 Cardigan, Miss Cora, 321, 345.  
 Carlez, Jules, *Page* 534.  
 Carte, Mr. H. W., his "bass" flute. 687, *fig.* 66.

- Carte, Mr. H. W., his collection of flutes. 500, 513, 531, 559.  
 Carte, Mr. R., fingering of his flute of 1867. 789.  
 — his first patent. 661-4.  
 — his flute of 1867. *Fig.* 65, 684.  
 — music by, 926.  
 — notice of, 925.  
 — on the claims of Gordon and Boehm. 628-9.  
 — on the improved conoidal bore. 666-7.  
 — shakes of his flute of 1867. 790.  
 Carte, Mr. R. D'Oyly, his songs with flute *obbligato*. *Page* 520.  
 Castrucci. *Page* 544.  
 Catalani, Madame. *Page* 587.  
 Caus, Salomon de, 162.  
 — on various wind-instruments. 402.  
 Cavallé-Coll. 348.  
 — on sound-production in the flute. 93.  
 Change in the flute-tube caused by blowing. 249.  
 Chladni. 155, 194.  
 — an advocate for equal temperament. 283.  
 — his remarks on composite sounds. 189.  
 — his remarks on pitch. 20.  
 — his sand-figures. 56. *Fig.* 5.  
 — on quality of tone. 202.  
 — on sound-production in the flute. 90.  
 — on the influence of partials. 217.  
 — on the tube of a wind-instrument. 242.  
 — on torsional vibrations. 34.  
 Chopin, arrangements from, *Pages* 528-9.  
 Choron. 840.  
 Chouquet. 441, 450, 499.  
 Chronological list of books and papers quoted. *Page* xix.  
 Clang-tint, see *Timbre*.  
 Clarinet, the, 80, 168, 232-3.  
 Clarke, Hamilton, his flute-music. *Page* 520.  
 Clementi and Co., "flûte d'amour" by, 532.  
 — makers for Nicholson. 536-8.  
 Clinton. 636-645.  
 — a patent flute by, 657.  
 — his "equisonant flute." 676.  
 — his "graduated holes." 676.  
 — his last patent. 678.  
 — music by, 928.  
 — notice of, 927.  
 — on the claims of Gordon and Boehm. 630.  
 Close, Wm., his attempt to remodel the flute. 488.  
 — his metal flutes. 320.  
 — the first to apply the principle of the piston to brass instruments. 146.  
 "Closed" system of keys. 394.  
 Clutch, the, 634-5, 638, 655-6, 681.  
 — the improved, 638 (*fig.* 59), 681.  
 Cöche, Victor, 390, 529, 569, 577, 715.  
 — his *d'* key. 395, 632.  
 — his "Examen critique." 609-625.  
 — music by, 924.  
 — notice of, 923.  
 — on the claims of Gordon and Boehm. 615-625.  
 Cöche and Buffet, their alterations in the new flute. 632-4, 655-6.  
 — the flute of, 634, *fig.* 57.  
 Cocus-wood. 313, 315.  
 Column of air, influence of the diameter of the, 154-6.  
 — its extension beyond the tube. 123-4, 137.  
 Columns of air, preliminary remarks on, 67-71.  
 — harmonics of, 132-9.  
 — vibrations of, 66-171. See Vibrations of columns of air.  
 Comma, the minor, 257.  
 — the Pythagorean, 259.  
 — with the ratio 80 : 81. 258.  
 Composite sounds, Bernoulli on, 186, 188.  
 — Chladni on, 189.  
 — La Grange on, 187.  
 Composite vibrations rendered visible by König. 191.  
 — by Melde. 190.  
 Corbett, Wm. *Page* 538.  
 Cork or stopper, the, 328.  
 — material and construction of, 329-330.  
 — position of, 331-2.  
 — use of, 328-332.  
 Correlli's music. *Page* 538.  
 Corrette, Michel, 421.  
 Corti's organ. 64.  
 Crescent-and-ring-key, Pottgiesser's, 544.  
 Crescent-keys, Gordon's, 569-570.  
 Cross-Fingering, see Fingering.  
 "Crutch," Boehm's, 396, *fig.* 36.  
 Cuzzoni. *Page* 544.  
*d'* and *d''* holes and keys, the super-numerary, 365-6, 570, 592, 632, 634, 681X., 789-793, 795.  
 Dacier, Madame, 301.  
 D'Alembert, his investigations. 51.

- Dauscher, 560.  
 Delezenne on the Comma 80 : 81. 258.  
 — on sound-vibration. 14.  
 Delusse, bass flute by, 450.  
 — instruction book by, 560.  
 — notice of, 844.  
 Demersseman. 891, 892.  
 — his flute-music. *Page* 521.  
 Demeurs, notice of, 932.  
 De Morgan, Campbell, on flute-playing. 691.  
 — Prof., on beats. 197.  
 Denner, Johann C., 339.  
 Denners, notice of the, 833.  
 Des Cartes. 59, 234.  
 — on composite sounds. 178.  
 — on harmonics of strings. 51.  
 — on the sounds of lute-strings. 17.  
 Descoteaux. 420.  
 Devienne, *Méthode* by, 480, 715, 741.  
 — music by, 859.  
 — notice of, 858.  
 Diagrams, list of, *Page* xvii.  
 Diderot. 443, 449.  
 Donkin, on longitudinal vibrations. 32.  
 — on music and noise. 12.  
 Doppler, Franz, his flute-music. *Page* 522.  
 Dormieulx. 560.  
 Dorus, Mons., 317, 441.  
 — his *g#* key. 635, *fig.* 58.  
 — notice of, 929.  
 Dothel, music by, 847.  
 — notice of, 846.  
 Double-tongueing. 818-822, 824.  
 — combinations of, with slurring. 824.  
 — Drouet's method of, 818, 900, 925.  
 — method of practising. 821-2.  
 — with *dou-gou, te-que, too-coo*, etc. 820.  
 — with *too-tle*. 819.  
 Dressler. 715.  
 — music by, 881.  
 — notice of, 880.  
 Drouet. 317, 318, 715, 741, 818, 890, 894.  
 — a flute by, 531.  
 — his double-tongueing. 818, 900, 925.  
 — music by, 901.  
 — notice of, 900.  
 — on the use of the harmonics. 192.  
 Dulon, music by, 869.  
 — notice of, 868.  
 Duvivier, his flute music. *Page* 522.  
 Ear, fibres of the, 63.  
 Ebonite. 321-2, 329.  
 Ebony. 315.  
 Ehrhard, his flute for the left-hand, 528.  
 Eight-keyed flute, the, 475, 481, 499, 531, 537.  
 — diagram of, 555.  
 — fingering of, 554-6, 783-4.  
 — shakes of, 784.  
 — tuning of, 549-551.  
 Ellis, Mr. A. J., 198, 199, 205, 236.  
 — on the imperfections of the theoretical scale. 265.  
 — his history of musical pitch. 297-8.  
 — his methods of measuring musical pitch. 295-6.  
 — his test of flute-intonation. 549-551.  
 — on equal temperament. 290.  
 — on meantone temperament. 269.  
 — on the tuning-fork. 37-38.  
 Embellishments. 827.  
 Embouchure, see Mouth-hole.  
 Emphasis. 810.  
 — and accent compared. 811.  
 Equal temperament, see Temperament.  
 Ernst, his "Elegy." *Page* 528.  
 Estève. 234.  
 — his adoption of the opinions of Mersenne. 178-9.  
 — his agreement with the opinions of Rameau. 172.  
 Euclid on musical intervals. 278.  
 — on musical notes. 19.  
 Euler. 51. *Page* xix.  
 Excavation round the mouth-hole. suggested by Ribock. 467, 868.  
 — adopted by Còche. 633.  
 Execution, method of acquiring, 825-6.  
 Experiments on columns of air in open and closed pipes. 161-4.  
 Farrenc, music by, 905.  
 — notice of, 904.  
 Fayolle. 194.  
 Festin. *Page* 545.  
 Fétis, his misinterpretation of Ribock. 467-8.  
 — his errors concerning Petersen. 863.  
 Fiegel, Capeller's flute-maker. 522.  
 Field, John, his Nocturnes. *Page* 528.  
 Fife, used in the French army. 399.  
 Finger-holes. 309, 343, 365, 599.  
 — Boehm's attempts to regulate their positions. 349-350, 355.  
 — diagram of their true positions. 351, *fig.* 21.  
 — diameter of the, 345-6, 676-7, 680.  
 — diminution of the, 414.  
 — graduated, Boehm's, 677.

- Finger-holes, graduated, Clinton's, 676.  
 — "large," 345, 680.  
 — "medium," 686.  
 — the positions of the, 348-356.  
 — Schaffhäutl on, 349.  
 — re-enlargement of the, 520.  
 — rules for adapting their positions to alteration of pitch. 352-3.  
 — table of their true distances. 351.  
 — their true positions. 350-6.  
 Fingering. 368-378. Chap. XIX., §781.  
 — and machinery. Chap. XII., §368.  
 — cross, 373-7.  
 — for "Boehm's Patent Flute." 587-9.  
 — "fork," 375, 414, 456.  
 — general remarks on, 781-3.  
 — Gordon's, advocated. 682.  
 — Hotteterre's, 417-419.  
 — of the eight-keyed flute. 554-558, 783-4.  
 — of the flute of 1867. 789.  
 — of the flute of Gordon, see Gordon.  
 — of the primitive flute. 406-9.  
 — old, efforts to combine it with the new system of holes. 652, 657, 659, 660, 671, 676, 678.  
 — in the *Encyclopédie*. 449.  
 Fingerings for the pseudo old-fingering flutes. 786.  
 Fingers, action of the, 720.  
 — constant employment of the, 378.  
 — position of the, 718, 719.  
 Flageolet. 88.  
 Fleischhack. *Page* 540.  
 Floeten. 398, 400.  
 Florio, P. G., 454, 477.  
 — music by, 853.  
 — notice of, 852.  
 — and Tacet, their employment of the "extra keys." 477.  
 Florio, G., 853.  
 Flûte-à-bec. 88.  
 Flûte à cinq pieds. 441.  
 Flute, by Bighioni. 430-3.  
 — by F. Boie. 424-9.  
 — by Koch, extending to *g*. 559.  
 — by Monzani. 500-2.  
 — by Potter. 518.  
 — by T. Lot. 446-8.  
 — Capeller's new, 521-4.  
 — Carte's, of 1850. 661-4.  
 — of 1867. 684.  
 — composers, professors and makers in 1826. 548.  
 Flûte d'amour. 310, 532.  
 — *douce*. 88.  
 — *droite*. 398.  
 Flute, eight-keyed, by Drouet. 531.  
 Flute, eight-keyed, figure and explanation of the, 555.  
 — fingering of the, 554-8.  
 — fingering, see Fingering.  
 — intonation. 249, 348-356, 438, 549-553, 594, 599-603, 644, 648-652, 654, 668-9, 673-4, 692, 762-8.  
 — Petersen's, 541.  
 — Pottgiesser's first, 489-498.  
 — second, 542-6.  
 — preservation of a, 704-6.  
 — Rockstro's model, see Rockstro.  
 — the cylinder, 653-6, *figs.* 61, 3, 4, 5, 6, 7.  
 — the new, improvements in, 638-9.  
 — the primitive, 406-410.  
 — the selection of a, 702-3.  
 — the transverse, at the Paris Opera. 420.  
 — the transverse, Hawkins on, 420.  
 — the transverse, not known to the ancients. 301-6.  
 — Ward's patent, 571, 640-2.  
 — Weber's account of a new, 521-2.  
 Flute, the, a century and a half of the early life of, Chap. XIII. §397.  
 — description of, 87.  
 — early writers on, 397-405.  
 — elegant appearance of, 700.  
 — eligibility of, 690.  
 — extension of its compass to *g*. 559.  
 — facility for articulation on, 697.  
 — history of, Chapters x., XIII., XIV., xv.  
 — in concert with other instruments. 695.  
 — in 1826-7. 548-553.  
 — its capabilities for execution. 696.  
 — its capabilities for expression. 694.  
 — its position. 717.  
 — latest development of, Chap. xv., §561.  
 — latest improvement in, 363, 688, 796.  
 — of 1850-1 } See Carte, Mr. R.,  
 — of 1867 } of Quantz. 434-8.  
 — portability of, 699.  
 — retrospect of improvements in, 561-5.  
 — superiority of the tone of, 693.

 Plot, Dr., his investigations. 51.  
 — his observations on strings. 43.  
 Pole, Dr. Wm., 268, 297.  
 — on beats. 197.  
 Popp, his flute-music. *Page* 525.  
 Position, general remarks on, 721-2.  
 — of the flute. 717.  
 — of the flute-player. 698, 710, 718, 719, 721-2.  
 — of the left arm, hand and fingers. 718.  
 — of the right arm, hand and fingers. 719.  
 Positive and negative reflection. 121.  
 Possin. 870.  
 Potter, Richard, his patents. 384, 453, 473.  
 Potter, W. H., 384.  
 — flute by, 518, 519.  
 — his sliding keys. 504.  
 Pottgiesser. 385, 510, 562-3, 586, 592-3, 599, 607.  
 — copy of his engraving. 496, *fig.* 47.  
 — his adoption of Capeller's *du* key. 544.  
 — his first effort to improve the flute. 489-498.  
 — his second effort. 542-6.  
 — his ring-and-crescent-key. 544, *fig.* 50.  
 Prætorius, Michael, 397.  
 — his account of the *Querflöte* and the *Schweizerpfeiff*. 403, *fig.* 41  
 Pratten, Madame, 937.

- Pratten, R. S., 652.  
 — his approval of the writer's tuning. 671.  
 — his "perfected flute." 671-2.  
 — music by, 936.  
 — notice of, 935-937.  
 Production of sound in the flute. 735-6.  
 — of the notes above *d'''*. 759-761.  
 — of the notes *c'''#* and *d'''*. 758.  
 — of the notes *d''* and *d''#*. 751.  
 — of the notes from *c'* to *c''#*. 745-750.  
 — of the notes from *e''* to *c'''*. 752-757.  
 Prowse, Thomas, Nicholson's flute-maker. 536.  
 Pryne, his denunciation of flute-players. 411.  
 Ptolemy, his completion of the scale. 252.  
 Pythagoras, the inventor of temperament. 266-9.  
 — his discovery of musical ratios. 250.  
 — his invention of the monochord. 250.  
 — his re-establishment of the octave. 251.  
 Quality of simple sound. 201.  
 — Chladni on, 202.  
 — Helmholtz's opinions on, contradicted by Seebeck. 206.  
 Quality of tone. Chap. VI., §199.  
 — constituents of, 200.  
 — constituents of, analytically and antithetically considered. 229-238.  
 — Dr. G. S. Ohm on, 205.  
 — general view of, 199.  
 — Helmholtz on, 205.  
 — modern theory of, 204.  
 — not independent of pitch. 236-8.  
 — occult causes of variety in, 240.  
 Quantz, J. J., 318, 323, 325-7, 330, 339, 381, 423, 703, 715, 729, 739, 836, 840.  
 — a flute of, 424-9.  
 — a flute of, 430-3.  
 — fingering of his flute with two keys. 435-7.  
 — his essay. 445.  
 — his flute with two keys. 434-8.  
 — music by, 839.  
 — notice of, 838.  
 — on the selection of wood for the flute. 316.  
 — on the early transverse flute. 413.  
 Rabelais, the German flute mentioned by, 998.  
 Raff album. *Page* 529.  
 Ragenet, the Abbé François, 420.  
*Rallentando*. 797\*  
 Rameau, a supporter of equal temperament. 281.  
 — his opinions on simple and compound sounds. 172.  
 — on the influence of partials. 214.  
 Range of musical instruments. 25.  
 Ratios, calculation of, 255.  
 — of the theoretical scale. 253.  
 Rault, music by, 848.  
 — notice of, 849.  
 Rayleigh, Lord, 105, 140, 340.  
 — on simple sound. 173.  
 — on the tuning-fork. 39.  
 — on velocity of sound. 9.  
 Reading at sight. 828.  
 Rebsomen, his flute for the right hand. 529.  
 Reed, the air, 84, 106, 107, 109.  
 — the beating, 80.  
 — the double, 81.  
 — the free, 79.  
 Reeds. 78-83.  
 Reicha, his music. *Page* 525.  
 — instructor of Walckiers. 902.  
 Reichert, his music. *Page* 525.  
 — notice of, 932.  
 Reissiger, his music. *Page* 525.  
 — his Trios arranged. *Page* 530.  
 Remusat, notice of, *Page* 589.  
 Resonators. 72-77.  
 — Wheatstone's experiment with, 74.  
 Respiration. 814-816.  
 — examples of good, 816.  
 Retrospect of improvements. 561.  
 Ribas, music by, 920.  
 — notice of, 919.  
 Ribock. 453, 474-5, 842, 846, 868.  
 — his attempts to improve the bore. 339.  
 — his "*Bemerkungen*." 466-470.  
 — closed *c''#* key. 455.  
 Riccati. 67, 124, 128.  
 — on the tube of a wind-instrument. 242.  
 Richardson. 652, 729, 819, 909, 921, 925.  
 — music by, 931.  
 — notice of, 930.  
 Ring-and-crescent-key, Pottgiesser's, 544, *fig.* 50.  
 Ring-key, employed by Boehm. 585, 591, 593.  
 — Gordon's, 568, 606-7.

- Ring-key, Nolan's, 509-511.  
 Roberts, the Hon. Francis, his investigations, 51.  
 — on the trumpet and the trumpet-marine, 115.  
 Rockstro, R. S., his *d*# lever, 670.  
 — his first scheme for the improvement of the flute, 668-9, 670, 673.  
 — his *f*# lever, 670, 673, 683, 792-3, 795.  
 — his improvements in the "cylinder" flute, 673-4, 679-683.  
 — his latest improvement, 363, 688, 796.  
 — his "model flute," 679-683, *fig.* 64.  
 — fingering of, see Gordon.  
 — his tuning adopted by Rudall and Rose, 669, 674, 682.  
 Roeser, 560.  
 Rose, J. M., his improved conoidal bore, 665-9.  
 — his improved tuning slide, 327.  
 — his partnership with Rudall, 535, 877.  
 — his skill as a maker of flutes, 535.  
 Rousseau, J. J., I, 36, 45, 234.  
 Rudall, George, *Pages* 287, 631.  
 — notice of, 877.  
 Rudall and Rose, 318, 342, 535, 549, 552, 643-4, 646, 911.  
 — tuning of an eight-keyed flute by, 549.  
 Rudall, Carte and Co., 310, 321, 925.  
 Rudall, Rose, Carte and Co., 673-4, 925.  
 Rudolphus, his defective translation of Spohr's violin school, 284.  
 Saint-Saëns, arrangements from, *Page* 529.  
 — his Romance for flute and piano, *Page* 526.  
 Salinas, the inventor of meantone temperament, 269.  
 Sand-figures, Chladni's, 56.  
 Saust, notice of, 870.  
 Sauveur, his investigations of string-vibration, 51.  
 — his *son fixe*, 293.  
 — on the influence of partials, 213.  
 — the first to investigate beats, 195.  
 Savart, 157.  
 — his experiments on longitudinal vibrations, 31.  
 — his grave note, 15.  
 — his proof of Bernoulli's theory, 126.  
 Saynor, 729, 909, 925.  
 Scacchus, his engravings, 305.  
 Scales and temperament, Chap. VIII, §250.  
 Scale, the, in equal temperament, calculations for, 272.  
 — compared with the theoretical scale, 273-4.  
 — logarithms of ratio of, 276.  
 — vibration numbers of, 273.  
 Scale, the "just," see Scale, the theoretical,  
 — the "meantone," intervals of, 270.  
 — logarithms of ratio of, 276.  
 — the Pythagorean, errors of, 268  
 — intervals of, 267.  
 — logarithms of ratio of, 276.  
 — the theoretical, 252.  
 — calculation of the vibration numbers of, 263.  
 — discrepancies of, 264.  
 — intervals of, 256-262.  
 — its inherent defects, 265.  
 — logarithms of ratio of, 276.  
 — table of intervals and vibration numbers of, 264.  
 — the causes of its imperfections described by Mr. Ellis, 265.  
 Scarlatti, 703, *Page* 543.  
 Schafhäütl, 349, 596, 605, 617, 911.  
 — on the claims of Gordon and Boehm, 631, 911.  
 Scheibler, his tonometer, 295.  
 Schickhard, 560.  
 Schisma, the, 546.  
 Schlegel, 560.  
 Schneebeli on sound-production in the flute, 100-4.  
 Schneider, G. A., his music, *Page* 526.  
 Schneider, J. C. F., his flute with two keys, 523.  
 Schroeck, 896, 913, 915.  
 — notice of, 876.  
 Schwegel, as shown by Virdung, 399, *fig.* 37.  
 — as shown by Luscinus, 399, *fig.* 38.  
 Schweyzerpfeiff, see Agricola.  
 Scott, his patent, 512.  
 Section, the musical, 812.  
 Sedlatzek, 559.  
 Seebeck on the tube of a wind-instrument, 242.  
 — on simple tones, 206.  
 Semitone, the, in equal temperament, ratio of, 272, 276.

- Semitone, the, in meantone temperament, 269, 270, 276.  
 — in Pythagorean temperament, 267, 276, 767.  
 — the diatonic, 262.  
 — the major chromatic, 261.  
 — the minor chromatic, 260.  
 Semitones, altered, 767-8.  
 Sensitive notes, 767-8.  
 Servius Honoratus, 304.  
 Shake, the, 827.  
 Shakes of the eight-keyed flute, 784.  
 — of the flute of 1867, 790.  
 — of the modified flute of Gordon, 795.  
 — of the "Rockstro-model" flute, 795.  
 Shore, John, 35.  
 Siccama, 671.  
 — his diatonic flute, 647-652.  
 — his patent flutes, 646-652.  
 Sight-reading, 828.  
 Signs, explanation of, *Page* viii.  
 Simple tones, Helmholtz on, 222.  
 — remarks on, 207.  
 Siren, the, 294.  
 Smith, Mr. Hermann, 157, 162.  
 — on sound-production in the flute, 100-4.  
 — Dr. Robert, his investigations, 15.  
 — his opinions on equal temperament, 282.  
 — on beats, 197.  
 Socrates, Xenophon on the teaching of, 307.  
 Sola, music by, 889.  
 — notice of, 888.  
 "Solo on the flute, how to play a," 909.  
 Sonorous bodies, harmonics of, 55.  
 Sorge, 194.  
 Sound, appreciated by deaf persons, 24.  
 — deepest audible, 15.  
 — flattened by distance, 20.  
 — general view of, Chap. I, §1.  
 — Helmholtz's opinion on Savart's deep, 15.  
 — intensity of, 8.  
 — in tubes, varying positions of the origin of, 160.  
 — musical, 18.  
 — Galileo's experiment, 18.  
 — Savart's experiments on, 18.  
 — nature and propagation of, 2.  
 — of the flute, how to produce the, 735-761.  
 — production of, in tubes, Chap. III., §66.  
 Sound, simple, quality of, 201-7.  
 — simplicity and complexity of, 172.  
 — transmission of, 3.  
 — velocity of, 7.  
 Sound-boards, 40.  
 Sound-production in the flute and its congeners, 84-112.  
 Sounds, fundamental, 44.  
 — grave, rendered appreciable by their union with higher ones, 17.  
 — Mueller on, 15.  
 — Savart on, 15.  
 — lower-attendant, 192.  
 — of the lute, Des Cartes on the, 17.  
 — simple and composite, Chap. V, §172.  
 Sound-Vibration, 2.  
 — Delezenne's remarks on, 14.  
 — Herschel's remarks on, 13.  
 Sound-wave, experiment to illustrate the, 6.  
 — the exterior and interior, 142.  
 — length of the, 122.  
 — motion of the, 4.  
 Soussmann, music by, 916.  
 — notice of, 915.  
 Spencer, George, his collection of flute-works, *Page* xix.  
 — his "medium holes," 686.  
 — his suggested improvement of the "1851 flute," 684.  
 Spohr, 310.  
 — an advocate for equal temperament, 284.  
 — arrangements from, *Pages* 530, 620.  
 — his music, *Page* 526.  
 Springs, best form of flat, 389, *fig.* 33.  
 — double, 389, *fig.* 32.  
 — needle-, 390, *fig.* 34, 633.  
 Staël, Madame de, 874, 888.  
 Strauss Album, *Page* 529, §921.  
 Strings, harmonics of, 44-8.  
 — Rousseau's remarks on the harmonics of, 45.  
 — segments of, 44.  
 — vibrations of, 41-3.  
 Style, 829.  
 — rules for the avoidance of had, 829  
 Sympathetic vibrations, 58.  
 Synthesis of intervals, 254, 5.  
 — of tones, 239.  
 Tacet, 452, 476-7, 667.  
 — music by, 851.  
 — notice of, 850.  
 Taffanel, M. Paul, his edition of Drouet's Studies, 901.  
 Taillard, 560.

- Tartini, the discoverer of grave harmonics. 194.  
— his violin playing. *Page* 542.  
Taubert, music by, 855.  
— notice of, 854.  
Taylor, Dr. Brook, his investigations of string-vibration. 51.  
Temperament. 266.  
— equal, 271.  
— calculations for, 272.  
— excellence of, 290.  
— remarks on, 275.  
— rise and progress of, 278.  
— used in England in 1730. 281  
— meantone, 269.  
— the Pythagorean, 267.  
Terpander, his addition of three strings to the lyre. 250.  
Terschak, his music. *Page* 527.  
Tetrachord, the, 250-51.  
Thompson, Gen. Perronet, his condemnation of temperament. 288.  
Thumb, the right hand, authorities for placing it against the side of the flute. 716.  
*Timbre*. 199.  
Time. 797-802.  
— beating and counting, 798.  
— change of, 797.\*  
— common, 799.  
— compound common, 801.  
— compound triple, 801.  
— triple, 800.  
Tone, a, 251.  
— acuteness of, 236.  
— brilliancy of, 232.  
— clearness of, 235.  
— dullness of, 232.  
— gravity of, 236.  
— harshness of, 233.  
— impureness of, 235.  
— inflection of, 778.  
— the, of the flute. 769-774.  
— power of, 230.  
— production of, in the flute. 735, 736, 745-761.  
— quality of, see *Quality*.  
— softness of, 230.  
— sweetness of, 233.  
— the hard thin, 770.  
— the hollow, 771.  
— the true, of the flute. 772-774.  
— thinness of, 231.  
— volume of, 231.  
Tongue, use and abuse of the, 737-744.  
Tonometer by Scheibler. 295.  
Tour, Baron Cagniard de la, 294.  
Tours, B., his song with flute *obbligato*. *Page* 527.
- Townley, his *d* key. 506.  
— his mouth-piece. 507.  
— his tuning lever. 505.  
Trexler, of Vienna. 559.  
Triple-tongueing. 823.  
Tromlitz. 316, 326, 434, 469, 490, 492, 495, 497-8, 500, 562, 592, 596-7, 599, 607, 716, 868.  
— his eight-keyed flute. 481.  
— his first work. 474-6.  
— his flutes. 471.  
— his flute with seven keys. 475.  
— on the open *c'* key. 482.  
— his second work. 478.  
— his system of "open holes." 483-6.  
— his third work. 481-6.  
— music by, 843.  
— notice of, 842.  
Trumpet-Marine. 49, 50.  
*Tsche*. 84, 86, 302.  
Tube of a wind-instrument, anecdotes concerning the, 249, 322.  
— conductivity of the, 245-6.  
— functions of the, Chap. VII., §241.  
— diversity of opinion, concerning the, 241.  
— remarks on the, 243.  
— influence of thickness in the, 248.  
— its influence on pitch. 244.  
— power. 245.  
— quality. 247-8.  
— permanent change in the, 249.  
— of the flute. Chap. XI., §308.  
— thickness of the, 322.  
Tubes, musical, lateral openings in, 143.  
— production of sound in, Chap. III.  
Tubular extension of the *c'* hole. 363, 688, 796.  
Tulou. 715-716, 741, 778, 894, 898, 902, 923.  
— music by, 893.  
— notice of, 890.  
— pupils of, 891-2.  
Tuning of a flute, alteration in the, caused by varying thickness. 355.  
— practical test of its accuracy. 355.  
— spoiled by improper use of the tuning slide. 356.  
— See *Finger-holes*.  
— See *Flute intonation*.  
Tuning-fork, the, 35.  
— effect of rust on, 38.  
— invention of, 35.

- Tuning, Mr. Ellis's remarks on, 37.  
Tuning-forks, *a'* 450, and *a'* 452. 300.  
Tuning lever, Townley's, 505.  
Tuning slide, Capeller's, 522.  
— use of the, 765-6.  
— various kinds of, 327.  
Two flutes, the effect of, given by one. 696, 871.  
Tyndall on sound-production in the flute. 96-8.  
— on the sand-figures of Chladni. 56.  
Vaillant. 560.  
Vanderhagen. 560.  
Vanhall. 453, 860.  
Veiled notes. 347.  
Vent-holes. 149-153, 357-364.  
— experiment with, 359.  
— should be of sufficient size. 358  
— their positions. 358.  
— their tendency to cause sharpness. 364.  
— the proper ones to use. 357.  
— why they are necessary. 357.  
Vibrations, different species of, 26.  
— longitudinal, 31.  
— of air in tubes, preliminary remarks on, 66-71.  
— of columns of air. Chap. IV., §114.  
— Bernoulli's theories of, 116, 118, 119, 120, 122, 123, 130, 131, 132, 133, 134.  
— early writers on, 114-5.  
— erroneous opinions on, 128-9.  
— independent of wind-rush. 141.  
— influence of diameter on, 154-5.  
— in open and closed pipes, experiments on, 161-4.  
— in open tubes. 122.  
— in prismatic tubes. 156.  
— in stopped tubes. 119, 120.  
— in tubes closed at both ends. 131.  
— in tubes of varying diameter. 165-171.  
— La Grange on the, 117.  
— qualification of Bernoulli's theories of, 130.  
— Hon. F. Roberts on, 115.  
— of solid bodies. Chap. II., §26.  
— of strings. 41.  
— of strings, laws of the, 43.  
— pendular, 27-8, 119.  
— sympathetic, 58-62.  
— torsional, 34.  
Vibrations, transverse, 27-29.  
Viridung, his representation of an early key. 381, *fig.* 25.  
— his representation of the *Schwegel* and the *Zwerchpfeiff*. 399.  
— on the flute. 397.  
Virgil. 304.  
Wagner (Oscar), his Sonata. *Page* 527.  
Walckiers. 716, 891.  
— music by, 903.  
— notice of, 902.  
Waller, his idea of noise. 10.  
Wallis, Dr., on the influence of partials. 212.  
— on vibrations of strings. 61.  
Ward, Cornelius, 312, 342, 362, 369, 390, 454, 529, 530, 571, 581, 643.  
— a maker of the improved Gordon flute. 639.  
— his mention of the flute of 1803. 489.  
— his patent flutes. 640-2, *fig.* 60.  
— on Gordon's flute. 567-8, 626-7.  
Weber, Gottfried. 564-5.  
— C. M. Von, arrangements from, *Page* 620.  
— his account of a new flute. 521-2.  
— his intimacy with Fuerstenau. 898.  
— his Trio, Op. 63. *Page* 527.  
Weiss, Carl. 868, 874.  
— C. N., 771.  
— music by, 875.  
— notice of, 874.  
Wendling. 860.  
Wheatstone, Sir Charles, 167.  
— his experiments on columns of air. 157, 159, 160.  
— his kaleidophone. 30.  
— his proof of Bernoulli's theory. 127.  
— on quality of tone. 203.  
— on resonators. 74-77.
